

# FINANCE CAREERS ACCELERATED.

DAM Capital creates long-term relationships with middle market companies seeking a flexible financial partner that can help accelerate their business. Owned by Anschutz Corporation – one of the largest privately-held investment firms in the world – DAM Capital partners with leading commercial banks in local markets to deliver innovative debt solutions. The DAM Capital group's investment professionals tailor each financial structure to the borrower's situation, whether for a change in the share ownership, refinancing, expansion, acquisition, or simply to improve liquidity. As a result of strong growth in its business, DAM Capital group is now looking to expand headcount in certain areas.

## Investment Directors • London Based Fluent Italian or Dutch • £ Competitive

DAM is looking for Italian and Dutch speaking Investment Directors. You will need to have extensive experience working on highly leveraged transactions, including mezzanine, within the mid-cap market. For the Italian speaking role, prior experience working on Italian debt transactions as an arranger or participant is also essential.

### Main responsibilities of the role will include:

- A lead role in the analysis, structuring and negotiation of mezzanine facilities
- Responsibility for transaction execution, term sheet structuring and loan documentation
- Mentoring junior members of the team

### The ideal candidate will need to have:

- Extensive experience working on highly leveraged transactions
- A strong knowledge of mezzanine debt is essential
- Excellent interpersonal skills
- Prior experience working on transactions from origination through to execution
- Excellent practical knowledge of term sheets and legal documentation
- Business fluent Italian or Dutch is essential in addition to fluent English

**Please use reference number MPFI12906320 when applying for this role.**

## Portfolio Manager • Luxembourg Based Fluent German • € Competitive

DAM Capital is seeking a portfolio manager to be responsible for the monitoring and control of the investment portfolio. Based in Luxembourg, you will manage a small team responsible for the credit management of transactions following completion.

### Main responsibilities of the Portfolio Manager will include:

- Supervision of a portfolio of investments across a wide variety of industry sectors in the European market
- Providing research, credit analysis and modelling on existing investments
- Working closely with the deal team, clients and partner banks through the life of the transaction
- Presentation of portfolio performance reviews to senior management
- Monitoring and providing guidance to account managers in the deal team

### The ideal candidate will need to have:

- Extensive credit analysis and portfolio monitoring experience; prior experience with leverage finance structures preferred
- Proven people management skills
- Strong interpersonal skills
- Business fluent German is essential in addition to fluent English. Fluency in Italian and/or Dutch would also be an advantage
